SAGEPOINT ACQUIRES HOME CARE COMPANY
Sagepoint Senior Living Services Acquires Circle of Care

Recently, Sagepoint Senior Living Services completed the acquisition of Circle of Care, a company located in Prince Frederick, MD providing home care assistance in Charles, Calvert, and St. Mary's Counties. Home Care Assistance will complement the current offerings of Adult Day Services, Assisted Living, Long-term Care, Memory Care, and Rehabilitation. This acquisition will be of significant benefit to the Southern Maryland community.

Home care services allow older adults to stay in their homes longer. Many adults wish to stay at home for as long as possible and, if only minor assistance is needed with daily activities, home care services allow many older adults to maintain their independence in the comforts of their own home. In addition, home care services are flexible, meeting both the needs of seniors who need assistance with daily living activities as well as families who need someone to care for an aging parent as they run errands. Since 2001, Circle of Care has been dedicated to helping keep your loved ones home and supporting you by providing companion care, personal care, and respite care.

"At Sagepoint we remain committed to improving the lives of older adults," said Bill Holman, President/CEO, Sagepoint. "We believe there is significant benefit to enabling older adults to age in place. By offering home care services, we are now able to assist the senior population who wishes to remain at home. This acquisition of Circle of Care will enable us to better serve the needs of seniors and their families throughout Southern Maryland and we are excited about the new opportunities this will create to support our mission."
