

Weekly Update: 8/29/2020

Please be sure to check here for weekly Sagepoint updates for families and friends.

Sagepoint Skilled Nursing Center:

- We remain with no staff or residents testing positive as of our last weekly testing.
- We have just learned that the Maryland Department of Health and the Charles County Department of Health have approved our plan to facilitate outdoor visitation of residents. We are busy making preparations for visitations and will be ready to release information on the policies and procedures and the start date at the beginning of next week. Please watch here for that update.

Sagepoint Assisted Living and Memory Care:

- No changes from last week's update.

IMPORTANT: We are mandated to follow extremely strict guidelines for outdoor visits to protect our residents. It is necessary for everyone participating to adhere to the rules when visiting outdoors and we thank you for your cooperation.
