

Weekly Update: 1/29/21

Please be sure to check here for weekly Sagepoint updates for families and friends.

Sagepoint Skilled Nursing Center:

Our latest weekly round of COVID testing has resulted in no positive cases in residents or staff.

Residents who opted to receive the vaccine and received their first dose on 1/6 have received their second dose on January 27th according to the protocol.

Residents and staff who received dose #1 on January 27th will receive dose #2 on February 17th according to the protocol.

According to the Maryland Department of Health, once the positivity rate has reached above 10% in the surrounding community, nursing homes must discontinue indoor visits until the rate is below 10%. This week, Charles County's positivity rate reached 11.3% placing the community in the red zone. In compliance with the regulation, we have discontinued all indoor visits until further notice.

Assisted Living and Memory Care

Our latest round of weekly testing has resulted in one positive cases in staff and no positive cases in residents.

According to the communication from Walgreens, it is anticipated that they are planning to be onsite to provide vaccinations to residents of the Gardens and Memory Care on February 3rd.

According to the Maryland Department of Health, once the positivity rate has reached above 10 in the surrounding community, assisted living centers must discontinue indoor visits until the rate is below 10%. This week, Charles County's positivity rate reached 11.3% placing the community in the red zone. In compliance with the regulation, we have discontinued all indoor visits until further notice.
