

Family Update: 09/01/21

Skilled Nursing Facility

The latest round of regular staff testing has resulted in one fully vaccinated staff member testing positive. The employee is on quarantine and the first round of all staff and resident testing is being completed. In addition, we are following all Maryland Department of Health requirements which include temporarily ceasing visitations until all testing is completed. We will communicate as soon as we are able to resume visitation.

Assisted Living and Memory Care

Assisted Living and Memory Care are not affected by this vaccinated employee's breakthrough case. The latest round of regular testing in these centers has resulted in no positive staff or residents to date.
