

09.07.2022

Always...Our first and highest priority is to protect and advocate for our residents and staff.

Charles County is experiencing **significant** community spread however according to the Center for Medicare and Medicaid Services and the Maryland Department of Health, visitation may still occur. Therefore, Sagepoint is requiring additional measures that are now in place to protect the most vulnerable, our residents.

Throughout the COVID pandemic we have repeatedly seen when there is high transmission in the outside community, there will be transmission inside our resident community. Please be aware of the risk of potential exposure either from you to the resident or to you when you visit.

If you are an at-risk or immunocompromised individual, do not visit at this time.

Sagepoint Skilled Nursing Center:

Our latest round of weekly testing on 9/7 has resulted in one staff member testing positive. All Center for Disease Control and Maryland Department of Health Guidelines are being followed.

Assisted Living and Memory Care

Our latest round of weekly testing has resulted in no residents or staff testing positive. All Center for Disease Control and Maryland Department of Health Guidelines are being followed.
